

# DO M

## A mobile, completely self-contained aspirator unit

It is intended for the dental practice that needs aspiration, separation and entrapping of the waste into the built-in separation vessel.

| Technical specification         | DO M                       |
|---------------------------------|----------------------------|
| Nominal voltage (V/Hz)          | 230/ 50, 230/ 60<br>110/60 |
| Max. output capacity (l.min- 1) | 1100                       |
| Max. under-pressure (kPa)       | 12                         |
| Noise level (dB [A])            | ≤ 48                       |
| Dimensions (w x l x h) (mm)     | 565x350x860                |

Technical modifications are subject to change.
